COVID-19 PCR

COVID-19 PCR	Result	Flag	Reference Range
SARS-CoV-2 (COVID-19) by RT-PCR ¹	Detected	Critical	Not Detected
<p>The SARS-CoV-2 assay is a Nucleic Acid Amplification Test (NAAT) by real-time reverse transcription polymerase chain reaction (RT-PCR) intended for the qualitative detection of nucleic acid from SARS-CoV-2 in specimens from individuals suspected of COVID-19 by their healthcare provider. The ThermoFisher Applied Biosystems™ TaqPath™ COVID-19 Combo Kit targets three CoV-2 genes (ORF1ab, S Gene/Protein, and N Gene/Protein). This test has been authorized by the FDA under an Emergency Use Authorization (EUA). This test has been validated in accordance with the FDA's Guidance Document (Policy for Diagnostics Testing in Laboratories Certified to Perform High Complexity Testing under CLIA prior to Emergency Use Authorization for Coronavirus Disease-2019 during the Public Health Emergency) issued on February 29th, 2020. FDA independent review of this validation is pending. This test is only authorized for the duration of time the declaration that circumstances exist justifying the authorization of the emergency use of in vitro diagnostic tests for detection of SARS-CoV-2 virus and/or diagnosis of COVID-19 infection under section 564(b)(1) of the Act, 21 U.S.C. 360bbb-3(b)(1) unless the authorization is terminated or revoked sooner.</p> <p>For Patients: https://app.flowhealthlabs.com/fda/RT-PCR_Patients.pdf For Providers: https://app.flowhealthlabs.com/fda/RT-PCR_Providers.pdf</p>

COVID-19 SMART® HealthCard

What is a SMART® Health Card?

- ✓ Holds important vaccination or lab report data
- ✓ Can be scanned to verify that the information has not been tampered with
- ⚠ **Don't forget** - scanning this QR Code will share all of the information on your Vaccine Card, so make sure to only share with those you trust.

This vaccination record is powered by SMART and works with any app or service where SMART Health Cards are accepted. For more information, please visit <https://smarthealth.cards/>.

The IAL number on this document describes the way that your identity information was collected at the clinic. You can find more information about IAL encoding here: <http://build.fhir.org/ig/dvci/vaccine-credential-ig/branches/main/ValueSet-identity-assurance-level.html>

Your record can be verified or imported into the app of your choice by scanning the QR Code.
